WORK EXPERIENCE

Senior Full Stack Engineer ElasticRun

09/2021 - Present

Pune, India

- Developed **full-stack** fintech app "**Kredit**" with latest tech.
- Introduced best practices to make the app the **fastest** and most **efficient** with great quality across Elasticrun's products.
- Performed **full-stack** development of high profile external web-app within standards.
- Scrum Master**, Task **Creation**, **Refining**, **Assigning**, **Guiding**, **Developing**, **Reviewing**, **Managing**, Handling all **blockers**, GitHub management, **Deploying**, and various other cool things.
- Contributed to Production deployment through **Jenkins** and ER's Intra communication network using **Kafka**.

Software Engineer eQ Technologic

07/2019 - 09/2021

Pune, India

- Developed **full-stack** web applications which processed, analyzed, and rendered data visually for Rolls-Royce.
- Improved legacy front end by replacing it with **ReactJS**, **Rest API**, and **Nodejs**. This resulted in **50% faster** loading times for our data-heavy internal application.
- Exhibited strong **technical aptitude** and application expertise resulting in **optimized performance**.
- Assisting with the transition from a waterfall model to the more efficient Agile methodology.
- Built **CI/CD** pipelines using **Jenkins**, **Docker**, **Kubernetes**, and custom scripts - helping teams deploy the application with ease.
- Scrum Master** - worked as a scrum master during my Rolls-Royce project. Handled all activities related to it.
